The Preschool 2 Classroom focuses on teaching children to love school! We create a safe, predictable environment in order for our students to feel confident and build independence. We know that our youngest students learn best through play, so all of our learning is done with that in mind. Our primary instructional focus is on social skill development, language development, large and fine motor skills.

Our first semester focus is helping our students settle into the classroom routine, and in the second semester we begin introducing early academic skills, such as colors, shapes, numbers, and counting. We also introduce our Zoo-Phonics curriculum. Students have ample time to explore their world and to express themselves through art, music, dramatic play, language, sensory exploration, and self-directed play.

Daily Schedule

- Large Motor Play
- Hand-washing/Snack
- Independent Book Time
- Circle Time
- Activity Centers/Free Play
- Closing Circle time
